

## **Glaucoma Medication Electronic Reminder/Compliance Aid (Team 35)**

*Week*            September 30<sup>th</sup>, 2006 – October 5<sup>th</sup>, 2006

*Client:*            Leo Wang  
                         Dept. of Ophthalmology and Visual Sciences  
                         UW Medical School  
                         Phone: (312) 953-1063  
                         Email: [lwang7@gmail.com](mailto:lwang7@gmail.com)

*Team*                Chris Webster - Team Lead  
*Members:*        Ksenija Bujanovic - Communication  
                         Mike Oldenburg - BWIG  
                         Jessica Hause – BSAC

### **Summary of Accomplishments**

- An idea for the use of an inexpensive PDA was developed. This would require less construction than some of our other ideas, but more programming.
- In either case, we have found two experts that can help us with the programming.
- A meeting was set for Friday with Liane.

### **This Week's Goals**

- Continue brainstorming and researching technologies.
- Start finalizing our three designs.
- Look into software that can be used to create the necessary programs.

### **Activities**

9.30.2006        Ksenija and Jessica went to DoIT, the student tech store, to ask about purchasing an inexpensive PDA.

9.30.2006        Chris emailed a professor in the Computer Science department for programming advice.

10.2.2006        Mike talked to his brother, a professional programmer, for more advice about possible programming solutions.
