

- **Title**
Finger switch for electro-cautery surgery
- **Names**
Luke Harris
Nick Kortan
Crystal Marshek
Andrea Rozmenoski
Ryan Sydnor
Valentine Thao
Mike Wells
- **Date**
9/13-9/19
- **Problem Statement**
To modify electro-cauterizing tweezers used during neurosurgery from an on/off switch currently used in conjunction with a foot pedal to an on/off switch located on the shaft of the tweezers.
- **Restatement of Team Goals**
- **Summary of Accomplishments**
Contacted Dr. Badie's assistant to set up meeting. Did not meet on Friday 9/14
- **Statement of Team Goals**
We hope to meet with our client, update the problem statement and hopefully starts the PDS (Product Design Specifications).
- **Project Schedule**
- **Difficulties**
We are waiting for a response from Dr. Badie's assistant as to when we can meet with Dr. Badie
