Rank the members of your design team (including yourself) with regard to the value of their participation/contribution to the team. List the highest contributor first and the lowest contributor last in the list below. Adjacent to each name, provide one ranking from the description list given at the bottom of the page. You may use the abbreviation. More than one member may have the same rating.

[OC] **Outstanding Contributor:** totally involved; carried others; sacrificed for the group

[HW] **Hard Worker:** did more than “fair share”; stepped up when needed; volunteered to help others

[FSC] **Fair Share Contributor:** just what the name says

[DW] **Do-Whatter:** “tell me what to do and I’ll do it”; other group members may just do it themselves as it is easier than explaining what or how to this person.

[BB] **Busy Bee OR [L] Lazy:** *different* ratings having the same effect on the group; relied on others; too busy with other commitments, courses, etc.

[N] **Negative:** worked, but group had to devote excessive time/effort to accommodate this person

[D] **Destructive:** totally negative; immersed in own ideas/methods; nothing is done “the right way”; destroys the effectiveness of the group.
